#### **Outcomes**

This Summer School provide a global and multidisciplinary vision of Latin America. To achieve this goal, the Summer School combines theoretical and practical sessions. The former are divided into sessions with academic experts in the area, and in a series of seminars with renowned specialists who offer a perspective of the most important issues in the region. The practical activities are carried out in teams to facilitate a multicultural environment in which students can apply the knowledge acquired in the theoretical sessions. Teamworking output is a final presentation (Hackaton) and a short case study. To culminate this global vision of the region a guided visit to the Casa de América has been organized.

Learning outcomes :

- Brief presentations (in video).
- Structured class debates.
- Intercultural teamwork to write and present a short case study of some relevant aspect (to be proposed by the student and discussed with the supervisors) on the Region.

#### **Competencies / Skills**

Critical thinking

Data analysis

Team work

Problem-solving

Leadership

Creativity

Latin America

## Assessment

- Attendance is compulsory in all courses and activities (10%)
- Teamworking. Students work as part of a team, and are asked to work together, collaborate, and solve a problem in a non-standard fashion. They produce and present a visual presentation. (40%)
- As homework, a short essay (a case study) in teams of up to 3 students should be presented. Students should apply the ideas and knowledge discussed in the summer school to the practical situation in question in the case study. (50%)
- The case study must be submitted in due time in order to grade.
